

# On Schedule

ASTN

Never fails you always right on schedule  
Look at my watch you always right on schedule  
Stay here at 7/11 every time you roll  
I bet it all that you right on schedule

Right on schedule  
Right on schedule  
Right on schedule  
Right on schedule

When you turn around and look back at me  
It's so inspirational  
The way you call my name builds my self esteem  
Always right on schedule

Way up in the clouds now, ain't thinking about coming down now  
Never cease to amaze me every time you come around  
No matter how busy, I'm on your calendar  
Weekend or the weekday you never let me down

Never fails you always right on schedule  
Look at my watch you always right on schedule  
Stay here at 7/11 every time you roll  
I bet it all that you right on schedule

Right on schedule  
Right on schedule  
Right on schedule  
Right on schedule

How you always in my mind, it's like telepathy  
How you always right on time with someone else, but me  
Every trip's a join venture when you're my company  
No matter any distance you pick up my frequency

Way up in the clouds now, ain't thinking about coming down now  
Never cease to amaze me every time you come around  
No matter how busy, I'm on your calendar  
Weekend or the weekday you never let me down

Never fails you always right on schedule  
Look at my watch you always right on schedule  
Stay here at 7/11 every time you roll  
I bet it all that you right on schedule

Right on schedule  
Right on schedule  
Right on schedule  
Right on schedule
