

# Starlight

ASTN

Baby, get dressed up  
Can't wait to undress you  
Tell me when you wanna slide  
And I'll be on my way  
Coming to get you

I can try, play it cool but it's useless  
When that body get to movin', girl, I lose it  
Usually, it's hard for me but the truth is  
Could be anywhere in the world, I'd still choose this

You and me together on a late night  
Dodging brake lights  
With nowhere to go and  
Nothing lasts forever but it's alright  
We're like starlight  
I love the way you glowin'

Driving 'round doin' nothin  
Maybe this is what love is  
You and me together on a late night  
We're like starlight  
I love the way you glowin'

Oh-oh, oh-oh-woah, oh  
I'ma get dressed up  
Just to impress you  
I'ma do the best I can to make you understand  
Ain't no one better (Oh no)

I can try, play it cool but it's useless  
When that body get to movin', girl, I lose it (Ooh, ooh)  
Usually, it's hard for me but the truth is (Ooh-woah)  
Could be anywhere in the world, I'd still choose this (Oh, baby)

You and me together on a late night  
Dodging brake lights (Dodging brake lights)  
With nowhere to go and  
Nothing lasts forever but it's alright  
We're like starlight  
I love the way you glowin' (Ooh)

Driving 'round doin' nothin  
Maybe this is what love is  
You and me together on a late night  
We're like starlight  
I love the way you glowin'
