

Tidal Wave

ASTN

I used to get so nervous, hmm
But honestly girl I still do, yeah
I used to skip on purpose, hmm-mmh
To meet you on top of your roof, yeah

Remember when you came home for Christmas, hmm
Back when love wasn't scared of the distance, oh no

I was afraid, I'll admit it
You gave me things, it was different
And I let us get inconsistent, oh no

But it's been too long
So baby won't you come home
'Cause I been feeling some type of way
I let you hit me like a tidal wave

I used to get so anxious
But honestly girl I still do, yeah
You used to say when I get famous
That I'd still be right next to you

Remember when I came down to visit, hmm
Back when love overpowered the distance, oh no

But I wasn't strong, I'll admit it
You gave me things that were different
And I let us get inconsistent, oh no

But it's been too long
So baby won't you come home
'Cause I been feeling some type of way
I let you hit me like a tidal wave

Oh, I know we've been through it too much
But the past few months just wasn't us
I can feel it slipping, baby don't let go
You just gotta know, ooh-ooh

But it's been too long
So baby won't you come home
'Cause I been feeling some type of way
I let you hit me like a tidal wave

You used to give me a reason
To leave the house when it's freezing
Now I'm stuck here believing
I won't make my way back, make my way back, no
