

## Seventh Crusade

Astral Doors

Slaves under lock in the seventh crusade  
This war won't stop, it's of heaven made  
Soldiers of the seventh crusade

So many say it's the crusaders fault  
The world is upside down  
But as you know they only did what they'd been told  
Couldn't realize it was forever, on and on

They were knights on the seventh crusade  
Blood from a rock  
Knights on the seventh crusade  
Slaves under lock, this war won't stop

So what is Jesus for the common man?  
Muhammad's dear old friend  
I wonder what they think about these infernal fights  
Are we all infected souls of evil?  
Yes we are

There is a place on a higher ground  
Where angel's play, heavenly sound  
Get embraced by the great one's might  
We're gonna shine like fire, fire light

This is a time of pure disharmony  
And man is killing man  
So for a thousand years time has been standing still  
I guess this holy war will last forever, on and on

What is left to say?  
Are you on your way to the seventh crusade?  
Seventh crusade  
To the seventh crusade

Seventh crusade  
Knights on the seventh
