

# Closer

Astrid S

In the beginning you were a stranger  
But my outlines were drawn to the danger  
And once I had taste of your flavour  
Mhm, closer

So I'm keeping my eyes off you  
When she put her hands on you  
But later that night we do it again  
I'm keeping my mind off you  
When she got her body on you  
But later that night we do it again

Closer, pulling me closer  
Closer, I want you closer  
Tell her, tell her that it's over  
Now we're closer  
Closer

I think we both know that you should tell her  
Kiss of my perfume is still on your sweater  
This is the last time  
It's for the better  
Mhm, closer

Walking that door  
When every part of me is reaching for you  
With no apology  
I know everybody hurts  
But this base makes it worse  
What can I do to have you again?

Closer, pulling me closer  
Closer, I want you closer  
Tell her, tell her that it's over  
Now we're closer  
Closer

So I'm keeping my eyes off you  
When she put her hands on you  
But later that night we do it again  
I'm keeping my mind off you  
When she got her body on you  
But later that night we do it again

Closer, pulling me closer  
Closer, pulling me closer  
Closer, I want you closer  
Tell her, tell her that it's over  
Now we're closer  
Closer

Tell her, tell her that it's over  
Now we're closer  
Closer
