

## Down Low

Astrid S

Take it all off  
Know I'm drunk but I don't care it's what I want  
All I'm thinking of is what you could do to me  
And it's too much

If I'm honest you're just what I like  
And I want you to keep me up all night  
I can't take it but I could take you home  
Will you tie me up and do what you want

Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low

Just a little taste  
Know I'm drunk but I won't let it go to waste  
Please put me down on your to-do list  
Think I'm losing it right now  
Take it slowly then all at once  
Just keep telling me what you want  
Make me feel like I need someone

'Cause if I'm honest you're just what I like  
And I want you to keep me up all night  
I can't take it but I could take you home  
Will you tie me up and do what you want

Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low

'Cause if I'm honest you're just what I like  
And I want you to keep me up all night  
I can't take it but I could take you home  
Will you tie me up and do what you want

Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low  
Don't keep it down  
Keep it down, keep it down  
Keep it down low

Don't keep it down  
Keep it down, keep it down  
Keep it down low

Don't, don't keep it down low
