

Joyride

Astrid S

If we're gonna crash
Let's go out with a bang
If anyone could
We'd make it look good

Catching your eye
Got your hand on my thigh
If it's the last night
Let's end on a high

I should walk away when it begins
I know it's gonna hurt but I still get in
For the

Joyride
Going too fast but it feels right
We'll never last but I don't mind
You're breaking my heart but it breaks right
And I don't mind

When you're gone I'll cry myself to sleep
But right now you make it feel so sweet

It's a Joyride
You're breaking my heart but it breaks right
So I don't mind

Skip the red lights
The tension is high
Could cut with a knife
We're Bonnie and Clyde

No one annoys me like you
We're at the drive through
A meal and a fight
With fries on the side

I should walk away when it begins
I know it's gonna hurt but I still get in
For the

Joyride
Going too fast but it feels right
We'll never last but I don't mind
You're breaking my heart but it breaks right
And I don't mind

When you're gone I'll cry myself to sleep
But right now you make it feel so sweet

It's a Joyride
You're breaking my heart but it breaks right
So I don't mind

If it's the last night
Let's end on a high
If this is goodbye

Let the end begin
And I'll jump right in
For the

Joyride
Going too fast but it feels right
We'll never last but I don't mind
You're breaking my heart but it breaks right
And I don't mind

When you're gone I'll cry myself to sleep
But right now you make it feel so sweet

It's a Joyride
You're breaking my heart but it breaks right
So I don't mind
