

# Leave It Beautiful

Astrid S

Wish I had a better reason  
Wish that I could put my finger on a moment that went wrong  
But sometimes it's just a feeling  
And I think we've hit the ceiling

Could be holding on 'til it all goes wrong  
Saying things I don't wanna say  
Before we mess up we should stop  
I wanna remember you this way

So I let you go  
And we can keep it chapter on a pedestal  
Let's let it go  
And leave it beautiful

Maybe we'll find someone better  
Let's decide to swallow pride and hope the best is yet to come  
We always talked about forever  
But you know nothing lasts forever

Could be holding on 'til it all goes wrong  
Saying things I don't wanna say  
Before we mess up we should stop  
I wanna remember you this way

So I let you go  
And we can keep it chapter on a pedestal  
Let's let it go  
And leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful

We keep holding on  
To moments that we had when  
We were so in love  
I don't want them to vanish  
So I let you go  
Yeah I let you go

So I let you go  
And we can keep it chapter on a pedestal  
Let's let it go  
And leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful  
Leave it beautiful
