Side Effects

Astrid S

No sleep, way up
Now you got me stumblin' home
One drink, too much
Tryna find an antidote
You told me we were somethin'
Got me in the zone
Now you're the only reason
I'm turnin' off my phone

'Cause, baby, I can't think of nothin' else
Nothin' else

Lovin' you got side effects
You treat 'em like, "Next, next, next, next, next"
Lovin' you got side effects
You treat 'em like, "Next, next, next, next, next"

You got me feelin' nauseous
Way too much emotions
You should've been less deceivin' (Mm)
I should've been way more cautious (Mm)

'Cause, baby, I (I, I), I can't think of nothin' else
Nothin' else (Ah-ooh-ooh)

Lovin' you got side effects
You treat 'em like, "Next, next, next, next, next"
Lovin' you got side effects (Lovin' you got side effects)
You treat 'em like, "Next, next, next, next, next"

You treat 'em like nothin'
I treat you like, "Yeah-yeah, yeah-yeah"
You only want one thing
I should've said, "Nah-nah, nah-nah"
You treat 'em like nothin'
I treat you like, "Yeah-yeah, yeah-yeah"
You only want one thing
I should've said, "Nah-nah, nah-nah"

'Cause, baby, lovin' you got side effects (Lovin' you got side effects)
You treat 'em like, "Next, next, next, next, next"
Lovin' you got side effects (Oh-oh-ah)
You treat 'em like, "Next, next, next, next, next"

You treat 'em like nothin'
I treat you like, "Yeah-yeah, yeah-yeah"
You only want one thing
I should've said, "Nah-nah, nah-nah" (Nah-nah, nah-nah)
'Cause, baby, lovin' you got side effects
You treat 'em like, "Next, next, next, next, next"
