

# Sidelove

Astrid S

Mhm

Never wanna hit you first  
Been a week without a word  
Yeah, it always turns out messy  
Someone gets hurt  
Can't tell you how I feel  
Yeah I know we had a deal  
Not trying to mess it up  
But it just feels right

Takes me to his house but I can't stay over  
Unbuttons my blouse, starts to play "Controlla"  
Just wanted a taste, now I can't stay sober  
Trying not to feel

I'm sick of this sidelove  
Sick of you fucking with my mind, love  
Get me wishing you were my love  
You wanna be with me  
Don't wanna be with me

Yeah we said it from the start  
Got a room for broken hearts  
You got to keep your feelings on ice, right  
My power to the shields  
Be careful with your feels  
And stay inside your bubble lie

2 AM, you're sexting me  
"Hey, come over"  
I've already left and I'm in the Uber  
Knowing as my dress coming off my shoulders  
It's getting hard to leave

I'm sick of this sidelove  
Sick of you fucking with my mind, love  
Get me wishing you were my love  
You wanna be with me  
Don't wanna be with me

I'm sick of this sidelove  
Sick of you fucking with my mind, love  
Get me wishing you were my love  
You wanna be with me  
Don't wanna be with me

No, it's just not  
Like before  
Not picking petals anymore, mhm

I'm sick of this sidelove  
Sick of you fucking with my mind, love  
Get me wishing you were my love  
You wanna be with me  
Don't wanna be with me

I'm sick of this sidelove

Sick of you fucking with my mind, love  
Get me wishing you were my love  
You wanna be with me  
Don't wanna be with me

Ooh, ooh, ooh, ooh
