

# That Guy

Astrid S

Do you know what I find attractive?  
Guys who remember my name  
I get it you love a reaction  
Think everything mainstream is so lame

You order champagne bottles you can't afford  
You used to love LA but not anymore  
I try to get a word in but I get ignored, yeah  
Here we go

I'm like oh shit you're that guy  
Talking 'bout yourself all night  
I just know it, you're that guy  
You think you're really worth my time  
Who you tryna be? Baby honestly  
Don't you think I know your type?  
I'm like oh shit you're that guy  
Talking 'bout yourself all night

Obviously you're compensating  
God is it really that small?  
Did your parents not give you attention?  
No drawings up on the wall

So you order champagne bottles you can't afford  
You used to love LA but not anymore  
I try to get a word in but I get ignored, yeah  
Here we go

I'm like oh shit you're that guy  
Talking 'bout yourself all night  
I just know it, you're that guy  
You think you're really worth my time  
Who you tryna be? Baby honestly  
Don't you think I know your type?  
I'm like oh shit you're that guy  
Talking 'bout yourself all night

Oh shit  
Say you don't want me to get hurt  
I'm like oh shit  
Say I'm not like the other girls  
I'm like no shit  
Say you don't want me to get hurt  
I'm like bullshit, bullshit

You don't even know it, you're that guy  
Talking 'bout yourself all night  
But I know it, you're that guy  
You think you're really worth my time  
Who you tryna be? Baby honestly  
Don't you think I know your type?  
I'm like oh shit you're that guy  
Talking 'bout yourself all night
