

Trust Issues

Astrid S

Why can't you say it to my face
If you don't want me anymore
Don't leave me hanging with my trust issues
If you don't want me, just be honest
Say it to me and don't leave me
All alone with all my trust issues

I gave you all of me
But you gave nothing back
Why do I always want
All what I can't have

You and I were salt and pepper, mmm
Different but were good together, mmm

Why can't you say it to my face
If you don't want me anymore
Don't leave me hanging with my trust issues
If you don't want me, just be honest
Say it to me and don't leave me
All alone with all my trust issues

I know you better than
Your brother and your friends
And nothing closer then
You're in underwear

You and I were frame and picture, mmm
Lonely till we come together
Ah

Why can't you say it to my face
If you don't want me anymore
Don't leave me hanging with my trust issues
If you don't want me, just be honest
Say it to me and don't leave me
All alone with all my trust issues

Trust issues, trust issues
Leave me all alone with all my trust issues
Trust issues, trust issues
Leave me all alone with all my trust issues

You come here up slowly
Are you scared of being lonely?
Why don't you finish what you started?
Baby, just be honest

Why can't you say it to my face
If you don't want me anymore
Don't leave me hanging with my trust issues
If you don't want me, just be honest
Say it to me and don't leave me
All alone with all my trust issues

Trust issues, trust issues
Leave me all alone with all my trust issues

Trust issues, trust issues
Leave me all alone with all my trust issues
