

# Years

Astrid S

When you meet someone who has someone  
Is it your fault if you fall in love?  
When you know that you could hurt someone  
Is it your fault if you get involved?

Try to stay away from you  
But no one gets to me like you  
I got everything to lose  
Yeah I know

It's a mistake and my heart's gonna break  
It'll probably take me years to get over  
Even the hurt, yeah I know that it's worth  
All the years it'll take for me to get over you, you  
Years to get over you, you

When you meet someone and have someone  
And you're falling in and out of love  
And when you're close to giving up  
Just to give into another touch

You'll be coming home to me  
Sleeping where you shouldn't be  
Still I can't tell you to leave  
No, I know

It's a mistake and my heart's gonna break  
It'll probably take me years to get over  
Even the hurt, yeah I know that it's worth  
All the years it'll take for me to get over you, you  
Years to get over you, you

No I'm better off without you  
Probably better off without me too

It's a mistake and my heart's gonna break  
It'll probably take me years to get over  
Even the hurt, yeah I know that it's worth  
All the years it'll take for me to get over you, you  
Years to get over you, you

When you meet someone who has someone  
Is it your fault if you fall in love?
