

We'll Make Today Last Night Again

Astrud Gilberto

Lovely you made the night last night so lovely
You made me feel like you could love me
You made me feel like you would care

Last night it felt that life was just beginning
What went were before, has none meaning
We'll make today last night again

Lovely, we'll make this moment
This is our moment
This is our day
Lovely, we'll make completely
We'll love tomorrow
No yesterday

Hold me
Tell me again the thing you told me
Love me once more
Make me fell lovely

We'll make today last night again
We'll make today last night again
We'll make today last night again
We'll make today last night again

Hold me
Tell me again the thing you told me
Love me once more
Make me fell lovely

We'll make today last night again
We'll make today last night again
We'll make today last night again
We'll make today last night again
