

## Basically, i hate you.

Basically, I fucking hate you  
But I think I love you, too  
Basically, you fucked my life up  
How am I not over you?  
Basically, I fucking hate you  
But I think I love you, too  
Basically, you fucked my life up  
How am I not over you?

Dear Marie, I'm at a all-time low  
I'm sorry but I'ma let you go  
Put on your blush and clean up your nose  
Fix your hair and pull on your clothes like  
America's very rich, you know me  
Don't look up me, hell start the nose bleed  
Venom to throw, baby, disown me  
Spent too many days by my lonely

Bury me in your grave  
I won't ever let go  
Me and you on our own  
You're engraved in my soul

Basically, I fucking hate you  
But I think I love you too  
Basically, you fucked my life up  
How am I not over you?  
Basically, I fucking hate you  
But I think I love you too  
Basically, you fucked my life up  
How am I not over you?
