

Forest Fire

astrus*

Ay
You know you stuck up in my head
I got your love stuck in my heart
Bae you know I need you close
'Cause I don't wanna be apart
'Cause the second that I met you
I knew this was just the start
We got forest fire love
And it just started with a spark
'Cause we fight and then we fuck
And I'm like is this what you gonna do
Baby sit right here right next to me
I need your calm
'Cause I don't want somebody else
No I just want you to myself
You just dragging me through hell
You got me tripping though I fell for you
Sparks are flying, there ain't no denying
That it's you and I
Baby hold me close 'cause I'm just tryna
Look you in your eyes
I'm just tryna fuck tonight
Baby let me feel your vibe
Forest fire love, it spread so fast
That you ain't got no time

Ay, ay
Screaming SOS
Ay, ay
Did you get my text (did ya?)
Ay, ay
Watch me scream and shout
I know that the world's on fire
But baby just hear me out

I could be your Mr perfect
Never have a lonely night
If you wanna move a little
I could swing you left and right
Yeah, I like your name but
I think I'ma call you mine
If you wanna text me baby
I swear you just found that guy
She said can you eat it up?
Baby I'm a carnivore
I just bought a couple acres
I'ma make a carnival
Twenty-twos like I'm December
[?] like I'm September
Ask me when I'm gonna stop
But I think I'll go on forever

Ay, ay
Screaming SOS (help)
Ay, ay
Did you get my text (did ya?)
Ay, ay

Watch me scream and shout
I know that the world's on fire
But baby just hear me out

Ay

You know you stuck up in my head
I got your love stuck in my heart
Bae you know I need you close

Oh my God, Paulie
