Uh no-no-no  
No-no-no-no  
Ay-uh-uh-ay-ay  
Ay-uh-uh-uh-uh

Cause I've been doin' fine without you  
I already forgot about you  
I do not want to think about you  
I do not want to talk about you  
Cause I've been doin' fine without you  
I already forgot about you  
I do not want to think about you  
I do not want to talk about you  
Cause I've been doin' fine without you  
I already forgot about you  
I do not want to think about you  
I do not want to talk about you

Yeah yeah, look  
If you met me in my past you really don't know me now  
If you tryin' to say "I'm sorry" I really can't talk it out  
I'm way too busy chasin' thinks I dreamt about  
I stopped bitchin', maybe you should try it out  
See I got my heart broken, but had to keep that shit movin'  
Now all these little ghouls tryna copy what I've been doin'  
Lately I've been livin' life like this shit was a movie  
And all my exes are turnin' into my groupies

'Cause everybody thinks that they know me  
But I see them see them fadeing from me slowly  
I go for it, don't care the distance  
I cut you off and sign the difference  
Know what life I should be living  
I'll speak that shit into existance

Cause I've been doin' fine without you  
I already forgot about you  
I do not want to think about you  
I do not want to talk about you  
Cause I've been doin' fine without you  
I already forgot about you  
I do not want to think about you  
I do not want to talk about you

Yo, look  
It's one for the money, two for doin' sold out shows  
Three for everybody that just went and told me no  
I did this for myself, and to prove that they were all wrong  
Now I got your girl sending me pictures in her thong  
It's middle fingers up to my teachers that ain't shit  
One for my ex who said I wasn't worth it  
Another for the people who was tellin' me to quit  
I ain't ever looking back bitch I ain't finished

Cause I hated, keep our energy uh  
I forgot you, cause you're dead to me woah-woah

I'll be fine yuh-yuh  
I'll be fine  
I'll be fine yuh-yuh
