

Greed

astrus*

Can I be honest?

Can I be honest?

Can I be honest? It ain't really all that fair
But can I be honest? I learned to not care
She said it's all the same, it's rotting out my brain
She played me just like a game, I know

Yeah can we be honest baby?
You got more than what you need
I know you want it baby
You getting ate up by this greed
Tossing and turning, temperature burning
Once you have it, is it all worth it?
Can we be honest baby?
You getting ate up by greed

Okay like
I picked this outfit out the other day
Tryna impress her but nah I guess it's just too late
'Cause you went on your way and I fell on my face
I stuck in my own ways, I stuck in my own ways
'Cause nowadays I'm accompanied by cigarettes
And when I die leave your kiss stains on my chest
When you kiss me make sure to take my last breath
Take my last breath, take my last breath

Yeah can we be honest baby?
You got more than what you need
I know you want it baby
You getting ate up by this greed
Tossing and turning, temperature burning
Once you have it, is it all worth it?
Can we be honest baby?
You getting ate up by greed

Yeah can we be honest baby?
You got more than what you need
I know you want it baby
You getting ate up by this greed
Tossing and turning, temperature burning
Once you have it, is it all worth it?
Can we be honest baby?
You getting ate up by greed
