

# It's Okay If You Ruin My Life

astrus\*

I just wanna be fine  
Wasted my whole youth on getting high  
But I'll be okay  
Promise I'll be straight  
Take it day by day

So baby, what you say  
My cigarette breath on your pretty face  
Kissing you I can't ever quit my ways  
Anytime I'm with you  
I know it's way to soon  
To say I'm in love with you

So baby, go back and fourth  
They know your something they can not ignore  
Want more  
That night you danced away a star was born  
And baby, you know  
Your way to good  
To feel misunderstood

So baby, what you say  
The music stopped when you entered this room  
One look into your eyes I felt my doom  
And baby, that's fine  
Cause I'm quite all alright  
With you ruining my life

What you say  
Hmm, what you say  
I just been crashing out over you  
I been drinking way too much  
Thinking about you like way too much  
It's not okay  
I'm not okay  
And it's been way too long since I've seen your face  
And it's been way too long since I've changed my ways  
Still stuck on you  
Still stuck on you  
And all the things you do  
All the things you do

So baby, what you say  
The music stopped when you entered this room  
One look into your eyes I felt my doom  
And baby that's fine  
Cause I'm quite all alright  
With you ruining my life  
So baby, what you say

You and me babe we could get away  
I know I'm drunk but I swear I miss your face  
If this don't work out  
Babe, at least we tried  
Knew that till I died, fuck
