

# Luv U 4Ever

astrus\*

Yeah

Shit, I'm singing about you again

Fuck

Yeah

Love you forever, never forget it  
I really meant it, that's why I said it  
Flow through my veins, ingrained my soul  
Living my pain, your hand that I hold  
You told me that you'll never go  
I told you that I'll never go  
Is it the same? 'Cause I gotta know  
Is it the same? 'Cause I gotta know

Start with Monday, you hate me  
I'm in your head rent-free  
Then a couple days we all straight  
But then all of it just feels fake  
I mean I think all of this is about timing  
Tell you I'm fine but you know when I lie  
Then we get into an argument then  
This goes right back to it, like  
I know you hate every time I lie  
I'm being real girl, I suck at goodbye  
I said sorry for like the fifth time  
I can't stand it when you go cry  
Have your heart up on your sleeve  
My love under your feet  
My light spill when I bleed  
I'm forbidden fruit and you're Eve

Love you forever, never forget it  
I really meant it, that's why I said it  
Flow through my veins, ingrained my soul  
Living my pain, your hand that I hold  
You told me that you'll never go  
I told you that I'll never go  
Is it the same? 'Cause I gotta know  
Is it the same? 'Cause I gotta know

Love you forever, never forget it  
I really meant it, that's why I said it  
Flow through my veins, ingrained my soul  
Living my pain, your hand that I hold  
You told me that you'll never go  
I told you that I'll never go  
Is it the same? 'Cause I gotta know  
Is it the same? 'Cause I gotta know, yeah
