Okay

I don't wanna bother you but I know it's your work break
But I can't help but tell you that you look perfect
But I don't think us two meetings a mistake
Go shut me down I'm famous with heartbreaks
Huh
But I don't handle them that well
I just go and shop it out baby luxury retail
Take you sometime go do it on our scale
This amex card could get us a the wholesale

She said what's your name

Who are you
And are you free this afternoon
Meet by the lake take my hand
What's the risk give it a chance
Just take a step catch a groove
Come by me fill in this room
You need a push come make a move
Ignore the world it's just us 2

She the new girl, her name Stacy
She just moved in town with her bestie
She got some new friends and some old clothes
And has no idea where the rest is
She got no plans she got no mans
Life's upside down like a handstand
She just works hard
And gets paid less
Go unwind bae here's my address

Or paris when you want cause I'm good with the finance

Midnight on the sand getting shoulder rubs
Top floor suite go ahead and order sum'
Get one of everything and another one
