

Shadow Identity

Atari Teenage Riot

Fire and death
And rivers of blood
Don't listen to my in head voice that says STOP

Shadow identity
Shadow identity
Shadow identity
Living in a shadow
Identity

Precious little diamonds
Cut my precious little diamonds

They don't get it
They just don't get it
They don't get it
They just don't get it
They don't get it
They just don't get it
Beach has my friends
I can not trust

Shadow identity
Shadow identity
Shadow identity
Living in a shadow
Identity

There's noting they can say
That I want to hear

Never the same

Shadow identity
Shadow identity
Shadow identity
Shadow iden-ti-ty

Can a human learn not to kill for greed

Who do you want to be
And why
Who do you want to be
And why
Who do you want to be
And why
Who do you want to be
And why

Life without jealousy
When you expose the crimes
Cruelty and shame

They don't get it
They just don't get it
They don't get it
They just don't get it

They don't get it
They just don't get it
Beach has my friends
I can not trust

Fuel to the fire before it dies down
Fuel to the fire before it dies down
Fuel to the fire before it dies down
Fuel to the fire
Before it dies down

Before it dies down

Before it dies down

Who do you want to be
And why

Who do you want to be
And why

Who do you want to be
And why

Who do you want to be
And why

Who do you want to be
And why

Who do you want to be
And why
