

Hello And Goodbye

The Ataris

G **Em**
So long my friend, don't say goodbye
C **D**
just give me one last kiss beneath this glowing sky.
G
we'll go walking through the park
Am7
and hang out in the rain.
C
tell a joke and watch me smile
D
as we drink away the day.

G
And know the next time that you
C **C7**
make a wish upon a star
Em **D** **C** **C7**
I'll be wishing on the same one that you do
G
and every night I'm all alone
C **C7**
in some burn out highway town
Em **D** **C**
I'll be thinking of the day that I met you.

G **Em**
Hello again, it's been to long.
C
what happened to our love
D
since the last time I was gone?
G
I detach myself again
Am7
and lose something everytime.
C
the solutions in the problem
D
temporarily alright.

G
And know the next time that you
C **C7**
make a wish upon a star
Em **D** **C** **C7**
that sometimes it might actually come true.
G **C** **C7**
our conversation can't consist of hello and goodbye
Em **D** **C**
and the silence between saying I love you.
Am7 **C** **G**
and sometimes I wonder 'bout that too.
