

## L.A. Nights

ATB

{One-two-three-four}  
Black night, white lights  
Your eyes amplify  
Like a heartbeat  
On the downbeat lover  
Black night, white lights  
On the B-side, I found what I was after  
Black night, white lights  
You're so crazy nice  
Like a small town  
Filled with scyscrapers  
Black night, white lights  
So divine, take me downtown be my saviour  
And the whole world is you  
On this black night  
Make everything come true  
Under white lights  
You're on my radar, on my radar  
With your designer love  
Before things get much crazier  
There's something you should know  
You're on my radar, on my radar  
With your designer love  
Sometimes when I watch you sleep  
I think I made you up  
You're on my radar, on my radar  
With your designer love  
Before things get much crazier  
There's something you should know  
You're on my radar tonight  
You are  
Black night, white lights  
Your hand is locked in mine  
Like a chain link  
Sealing the exit  
Black night, white lights  
R.G.B.Y. this photo says I'm taken  
Black night, white lights  
You're so crazy nice

Like a small town  
Filled with scyscrapers  
Black night, white lights  
So divine, take me downtown be my saviour  
And the whole world is you  
On this black night  
Make everything come true  
Under white lights  
You're on my radar, on my radar  
With your designer love  
Before things get much crazier  
There's something you should know  
You're on my radar, on my radar  
With your designer love  
Sometimes when I watch you sleep  
I think I made you up  
You're on my radar, on my radar

With your designer love  
Before things get much crazier  
There's something you should know  
You're on my radar tonight  
You are  
You're on my radar, on my radar  
With your designer love  
Before things get much crazier  
There's something you should know  
You're on my radar, on my radar  
With your designer love  
Sometimes when I watch you sleep  
I think I made you up  
You're on my radar, on my radar  
With your designer love  
Before things get much crazier  
There's something you should know  
Oh, my radar  
Oh, my radar, tonight
