

Where You Are

ATB

I'm amazed
There were promises made
Much sweeter than this
And I'm so afraid
Lights are flickering
And there's no escape

Feels like I'm falling
I'm falling back
To where you are
Can you hear me calling
Your name
From where you are

When we align
Feel your hand in mine
Shadows fall across the sky
And dreams end in broken ashes
That shattered like fall
And darken my sky

Feels like I'm falling
I'm falling back
To where you are
Can you hear me calling
Your name
From where you are

Feels like I'm falling
I'm falling back
To where you are
Can you hear me calling
Your name
From where you are
