

Must Have Love (Duet)

ATBO

Happy winter holiday, joyful Christmas Day
Ring the bells and sing the carols, all my people in town
May your new year be the best, I'll be blessing you
Singing all around the Christmas tree

I'm feeling love in every corner of the world
Just like frosting on a birthday cake, I can see the snow piling up
Come take a listen to the bells you hear from afar
The Christmas spirit this music carries brings joy to all of us
, ooh

Day we all have waited for, day that's full of joy
Ring the bells and sing the carols, all my people in town
Day we're always longing for, day that's full of love
Singing all around the Christmas tree

Been through it all together thick and thin as friends
I remember being so scared to tell you how I truly felt for you
But now, with you by my side, what more could I ask for?
We're in this beautiful time together, I'll give you everything
, ooh

Day we all have waited for, day that's full of joy
Ring the bells and sing the carols, all my people in town
Day we're always longing for, day that's full of love
Singing all around, singing all around
Happy winter holiday, joyful Christmas Day
Ring the bells and sing the carols, all my people in town (Town
)
May your new year be the best, I'll be blessing you (Oh, yeah,
yeah)
Singing all around the Christmas tree
This season is the time for love
