## I'm Gonna Make You Mine

You were always mine at school But you would always play it cool So I played along, and I was always strong

'Cause I knew there'd come a day When you would be my come what may So I played along, and all your friends were wrong

Everybody gets a wish Make your dream come true Then I know that I get mine And maybe it's you

R: I'm gonna make you mine, till the end of all time I'm gonna make you mine forever I'm gonna make you mine, gonna give you a sign I'm gonna make you mine forever (2x)

I'll be waiting patiently So save the last dance just for me 'Cause I need you now Let me show you how

I have seen it all before It's misunderstood If all is fair in love and war Then why does it hurt so good?

R: (2x)

I have loved you from the start You knew that I would If love is really all so bad Then why does it hurt so good?

R: (2x)
