

Until

ATC

I gave you true desire
I gave you eyes to see
I gave you wings of fire
So you could fly with me

I gave your heart a passion
I gave your life a theme
I gave you all the actions
So won't you come and dance with me

R: Until the world has stopped revolving
Until the birds have left the trees
Until the winds have stop from blowing
You'll be loved by me

Until the rainbows stop from shining
Until the fish down swim the seas
Until the stars have stopped colliding
You'll be loved by me

I'll be the wind in summer
I'll be the sun in spring
I'll be the fire in winter
Cause I can be your everything
Cause I can be your everything

Until the world has stopped revolving
Until the birds have left the trees

Until the winds have stopped from blowing
You'll be loved by me

Take my hand
Be who you are
I'll be your fire
Just show me the spark

Until the world has stopped revolving
Until the world has stopped revolving
Until the winds have stopped from blowing

R:

Until the rainbows stop from shining
Until the fish down swim the seas
Until the stars have stopped colliding
You'll be loved by me

R:

Until the rainbows stop from shining
Until the fish down swim the seas
Until the stars have stopped colliding
You'll be loved by me
