Why Oh Why

Do da n de da n dai (Do da n de da n dai) It's a feeling i got inside Tell me just why oh why Do da n de da n dai

Sky is blue and the day is light I look to the sun I see your face and your smile is bright the clouds are on the run

You ask me why I look so sad But I find the words to say

Do da n de da n dai (Do da n de da n dai) It's a feeling i got inside Tell me just why oh why Do da n de da n dai

You're getting close and I kiss your lips It never felt so strange I feel your soul on a different trip It's time to rearrange

You ask me where all the love is gone but I find the words to say

Do da n de da n dai (Do da n de da n dai) It's a feeling I got inside Tell me just why oh why Do da n de da n dai
