Let's make a toast like a thunder
Fill in everything As much as it overflows
Raise your glasses over your heads
As high as you can be shown anywhere

I got the answer Open your hand and look up say oh
Raise glasses and face each other say oh
Shouting out that the end means the beginning
Remember we were together from the tip of the toe, say my name

Burn burn Burn it up, more Keep going,
Make a fire Everyday's a finale show
As like tomorrow is the end of the world Maintain this fever
Oxygen, Fire, because you and I make the bluish light

The burning sun and the huge wave are nothing for us
Come in, as we don't care We're not afraid anymore
No one can touch Like a burning flame

Let's make a toast like a thunder
Fill in everything As much as it overflows
Raise your glasses over your heads
As high as you can be shown anywhere
1, 2, 3 let's burn

Oh Call, call, call us right now
Burn like a flame
Oh Call, call, call us right now
As loud as you can be shown anywhere
Burn like a flame

The desert With nothing
We started there

Hot, hot Remember that time
Round, round Gather together
Young and free, we hiss at the world
Brighten ourselves in the dark with no answer

The burning sun and the huge wave are nothing for us
Come in, as we don't care We're not afraid anymore No one can touch
Like a burning flame

Let's make a toast like a thunder
Fill in everything As much as it overflows
Raise your glasses over your heads
As high as you can be shown anywhere
1, 2, 3 let's burn

Gather up here everyone
If it's hot, join us
If you want everything in the world

Lonely Painful Scared Afraid
That days are gone Lift the flag and we put our hands up
Are all of you ready
1, 2, 3 let's burn

Can you see us
The burning eyes and our loud shoutings reaching across the world
If you can hear it
Please come to me as we can be together
1, 2, 3 let's burn

Oh Call, call, call us right now
Burn like a flame
Oh Call, call, call us right now
As loud as you can be shown anywhere
Burn like a flame
