Himmlische, dein Heiligtum

Was die Mode streng geteilt  
Alle Menschen werden Brüder  
Wo dein sanfter Flügel weilt

The burning sun  
And the huge wave  
Are nothing for us  
Come in, as we don't care  
We're not afraid anymore

Let's make a toast like a thunder  
Fill in everything, as much as it overflows  
Raise your glasses over your heads  
As high as they can be seen anywhere

Like a burning flame  
(Oh) Call, call, call us right now  
Burn like a flame  
(Oh) Call, call, call us right now  
As loud as you can be heard anywhere  
Like a burning flame

The desert  
With nothing  
With nothing  
We started there  
I remember, our start  
I remember, the night I was alone  
I remember, the hot fight  
I remember, the tears, blood and sweat  
I remember, the eight beliefs in the origin of destiny  
I remember, please remember everything

The burning sun  
And the huge wave  
Are nothing for us  
Come in, as we don't care  
We're not afraid anymore  
No one can touch it  
Like a burning flame

Let's make a toast like a thunder  
Fill in everything, as much as it overflows  
Raise your glasses over your heads  
As high as they can be seen anywhere

One, two, three, let's burn

Gather up here everyone

If it's hot, join us

If you want everything in the world

Lonely

Scared

Those days are gone, lift the flag and we put our hands up

Are all of you ready?

Joy to ode

Daughter from Elysium

We enter, drunk with fire

Heavenly, your sanctuary

Your spells bind again (Oh-oh)

What the fashion strictly divided

All people become brothers

Where your gentle wing rests
