

# Creep

ATEEZ

I love hearing your whisper echo off these walls  
Girl, your words command attention like a silent call  
Stolen breath, nothing said  
Nobody needs to know our secrets  
Taking turns, push and pull  
I'll give you everything you need and want

Every toucha special detail  
Each move I make, I'm juicing up that cocktail  
Show me better, you're what matters all day 'n' night  
I like it when you lose control

I feel like a Creep, yeah  
Keep it on repeat  
Make it overheat  
Take it all the way, make me wanna stay

I feel like a Creep, yeah  
Meet you 04:05  
I got what you like  
As we fade into the other side  
Now I see the Creep

No need to panic  
It's just another feeling  
Your steps are silent  
But it's your mind that's speaking  
I kinda like it  
The way you hide it  
Makes me wanna take you apart

Every touch a special detail  
Each move I make, I'm juicing up that cocktail  
Show me better, you're what matters all day 'n' night  
I like it when you lose control

I feel like a Creep, yeah  
Keep it on repeat  
Make it overheat  
Take it all the way, make me wanna stay

I feel like a Creep, yeah  
Meet you 04:05  
I got what you like  
As we fade into the other side  
Now I see the Creep

Now I see the Creep  
Now I see the Creep

I feel like a Creep, yeah  
Keep it on repeat  
Make it overheat  
Take it all the way, make me wanna stay

I feel like a Creep, yeah  
Meet you 04:05

I got what you like  
As we fade into the other side  
I feel like a Creep
