This place, where right and left are unclear (Yah)

Feels like a maze (Oh)

Try again no matter how many times (Ooh)

Nobody can stop us (Oh, oh, ayy-oh)

Everyday keeps on repeating it's annoying

Fleeting days feels like a mirror image

Are you gonna let it repeat again?

You just need to dance with me now, oh, yeah

The city seeks noise, oh, yeah

We hope for a brighter day

The roses blooming in the gray city

Will wake the whole world

Let's keep it loud, want some more?

Let's shout it out, want some more?

Clutch your fists and shake the world

This place, where right and left are unclear (Make some noise)

Feels like a maze (Make some noise)

Try again no matter how many times (Make some noise)

Nobody can stop us (Make some noise)

Raise your voice louder, scream louder

Don't be scared and let go, I'm not okay now

Roar louder, raise your both your hands and shout

You know that I'm not okay

I'm not okay in a crises, in the worst kind of situation

Move away, move away, I'm at my limit

I can't stand being at someone else's beck and call

I feel sick from holding back too much

It's impossible, show me desire

Turn it ove now drop it, pow, keep going

Yeah, broken down, my senses are numb
We go high, jumping up to the ceiling
Hip-hop, pop, rock, whatever
Surrender yourself to the sounds you feel
The excited type, gonna make a fuss

Let's keep it loud, want some more? (Some more)
Let's shout it out, want some more?
Clutch your fists and shake the world

This place, where right and left are unclear (Make some noise)
Feels like a maze (Make some noise)
Try again no matter how many times (Oh; Make some noise)
Nobody can stop us (Anyone; Make some noise)
Raise your voice louder, scream louder
Don't be scared and let go, I'm not okay now
Roar louder, raise both your hands
And shout, you know that I'm not okay

Like a rising wave
An echoing sound
That shakes the world
Run as if aiming for the end of the earth
Shout out as if burning your life away
This is the moment
When everything changes and begins

This place, where right and left are unclear (Make some noise)
Feels like a maze (Make some noise)
Try again no matter how many times (Make some noise)
Nobody can stop us (Make some noise; Don't stop, nobody)
Louder, roar that I'm not okay
Raise your voice and scream more
Louder, roar that I'm not okay
Raise your voice and scream some more
