

Survival below the forest line  
Becomes what can't be taken away  
Trip through the vines of the food chain  
He who doesn't stumble remains the  
Dominant of the jungle  
The leader of the wooded domain  
A defence provides the needed acceptance  
To camouflage themselves as animal!!!  
Separating weak from strong  
With no points in between  
Crawling, walking, climbing, stalking  
It's necessary for the predator.
