

I Wish

ATL

Oh oh oh oh oh
Ladies and gentlemen (Ladies and gentlemen)
This is another jazzile fizzile production
Woah, Oh boy

The sun don't shine the same
But without your love it don't shine at all

Yeah, Playing, sued, describes her wardrobe
Malibu stones inside her earlobes
She always front row at the show
Ay yo tell them how the story should go

Im just sitting here thinking how I waned up on ma own (own)
Now aint it funny how things go with two people in love (love)
Cause we used be cool,
We used to be homies
Till I founded up and never saw you still
And I cant be mad, cause im the one to blame

I Wish I woulda been better man (yeah)
I wish I woulda been a better friend (yeah)
I wish that I had a second chance
Cause if I did I would do the right thing again

You know you coulda been a better man (ohhhh)
You know you coulda been a better friend (ohh)
Now you wish you wish you wish (I wish I was till your man)

I wish I was still your man

It Started out with a funky combination
You was from Cali, I was from the A-town
I never met a girl with such dedication
I just knew that you would stay down
In the squads we was bigger than diddy and lo
When people they would see us say there they go
Ya mama said I was the nicest boy she met before
Then all I lost control
I had you at home, waiting for me
All alone, while im out in the streets
Im so wrong, for acting so hard
Cause now im all sore that your gone

And I, cant sleep, cant eat, cant drink
And I, Cant think, cant be without your love
Any longer, I'll be a better man if you just come home

I Wish I woulda been better man (yeah)
I wish I woulda been a better friend (I wish I woulda been)
I wish that I had a second chance
Cause if I did I would do the right thing again

You know you coulda been a better man (ohhhh)
You know you coulda been a better friend (ohh)
Now you wish you wish you wish (I wish I was till your man)

I wish I was still your man

If you play your cards right (ohh yeaah)
Everythin woulda been alright (woulda been alright)
If you play your cards right (If u played ya game right)
Everythin woulda been alright

I wish I coulda coulda
I wish I woulda woulda
All this wishin got me missin u
Back in the park fishin fa u
The right decisions woulda prevented
All them feelings you had from your end just listen

I Wish I woulda been better man (I wish I coulda been)
I wish I woulda been a better friend (Baby, I miss ya)
I wish that I had a second chance (Had a second chance)
Cause if I did I would do the right thing again (yeahhh)

You know you coulda been a better man (ohhhh)
You know you coulda been a better friend (ohh)
Now you wish you wish you wish (I wish I was till your man)

I wish I was still your man

If you play your cards right (ohh yeaah)
Everythin woulda been alright (woulda been alright)
If you play your cards right (If u played ya game right)
Everythin woulda been alright

The sun don't shine the same
But without your love it don't shine at all

Just let me speak on it though
Some of our love is lost man is just...
The atmosphere of the world aint right
When two people love each other, don't love each other no more

You wish, you wish, you wish
