

All In Your Mind

Atlanta Rhythm Section

You can move a mountain
And never raise your hand
Miracles can happen
If you believe they can

It's all in your mind
It's all in your mind
What you're looking for is what you'll find
Whoa... it's all in your mind

If they lock you in a prison
And throw away the key
There's a mighty, mighty power
To come and set you free

Whoa... it's all in your mind
Don't you know it's all in your mind
Have a little faith and you will find
Whoa hoe... that it's all in your mind

There's a road you never travel
To a place you've never been
There's a better way of living
And the answer lies within

Oh I said it's all in your mind
Yes I said it's all in your mind
Just have a little faith and you're gonna find
That it's all in your mind

You will find
It's in your mind
Whoa...
