

# Let the Sun In

Atlantic Starr

Let the sun in, let it in your soul  
Then shine your light on the young and old  
Let the sun in, let the light shine on your heart  
Don't let your love get hidden in the dark

Fill your mind with some happy thoughts  
As you go about your day, yeah  
Lend a helping hand to someone  
Try to find something nice to say  
Tell a friend that you love them, yeah  
And that your really care  
Let the light shine through you  
Spread some love everywhere

Let the sun in, let it in your soul  
Then shine your light on the young and old  
Let the sun in, let the light shine on your heart  
Don't let your love get hidden in the dark

I know there's someone in your life  
That's, oh, so very sad, yeah  
You can use the sunlight inside you  
To make that someone glad, yeah  
Let the whole world know  
That you love the life you live  
And for anyone that might need some light  
Your heart is open and to them you'll always give

Let the sun in, let it in your soul  
Then shine your light on the young and old  
Let the sun in, let the light shine on your heart  
Don't let your love get hidden in the dark

Never let the shades down  
To the windows of your heart  
'Cause you can't find love  
If in the dark it hides  
Keep your light glowing  
Feel it every day  
You'll find that life goes better  
When love presides

Let the sun in, let it in your soul  
Then shine your light on the young and old  
Let the sun in, let the light shine on your heart  
Don't let your love get hidden in the dark

Let the sun in  
Let the sun in

Let the sun in, let it in your soul  
Let the sun in, let the light shine on your heart...
