

Stand Up

Atlantic Starr

Woah, woah
I've got you to know
You can be what you what to
Something little fix in your mind (Wild, wild)
And if you didn't know, you can dive around if you want to
Just don't be behind the[?]
And what you do what you wanna do
Do with your heart and soul
Please don't hurt yourself
Be a young[?]
And if it starts to feel good to ya
And your body feels ? free
Then it's time to ride and stand up
And be what you wanna be

Stand up
Check out your mind
Why don't you stand up?
Why'd you thinking this right on time
Get out of your seats
And take a stand
But before you know it
Thank God you're not ?
Yeah

Open up your eyes
And I got your ears
Oh, don't be thinking 'bout what's behind ya
Start lookin' ahead
See what you want, I say
Just choose your ? nation
Or your mind is
I bring you do what you wanna do
Do with your heart and soul

Do with your heart and soul
Please don't hurt yourself
Be a young ?
