

We Got It Together

Atlantic Starr

We got it together
And love is starting to show
In nine months or so
We'll be a family
Sitting back, watching love grow (Love, ooh)

Remember, you told me
I was your world
Now we're all alone
Contemplating: a boy or a girl?

And we got it together with love
Now we're one with each other
We got it together with love
As love now keeps us together (Together)

Sometime in September
The sun will shine our way
And needless to say (Do-be-do-be-do)
You'll be a father
Helping mama pick out a name (Name)

Those moments of our love (Ooh)
Will bring years of joy
With the two of us
Celebrating a girl or a boy

And we got it together with love
Now we're one with each other
We got it together with love
As love now keeps us together (Together)

Oh (Do-be-do-be-do, do-do, oh)
Oh, those moments of our love (Ooh)
Will bring years of joy
With the two of us
Celebrating a girl or a boy

And we got it together with love
Now we're one with each other
We got it together with love
As love now keeps us together

We got it together, yeah (We got it together with love)
