

What'cha Feel Inside

Atlantic Starr

Show me what'cha feel
Show me what'cha feel
Show me what'cha feel

Well, I'm afraid you ain't showin'
How much you really care
Why can't you see
There's a whole lotta man right here
By your side through thick and thin I stay
I gave you my heart
And you promised never to break it

I don't wanna go
But first you gotta show me

What'cha feel inside
I can't be denied any longer
What'cha feel inside
Show me what'cha feel inside

I don't hear ya sayin'
I'm always on your mind
Maybe we should part friends
While there's still time
'Cause you're never givin'
Any more than you receive
So if you want my lovin'
Ya gotta make me believe

I don't wanna go
But first you gotta show me

What'cha feel inside
I can't be denied any longer
What'cha feel inside
Show me what'cha feel inside

Oh, you never tell me
Just what'cha feel for me, baby
Not like you used to, baby
That's the trouble, that's the trouble
That's the trouble

Do you still remember
The way it used to be
In the beginning
When love was all we needed
We begged, stole and borrowed
Tryin' to survive
Well, ain't it funny
How it all comes down to pride

I don't wanna go
But first you gotta show me

What'cha feel inside
I can't be denied any longer

What'cha feel inside
Show me what'cha feel inside

Oh, you never tell me
Just what'cha feel for me, baby
Not like you used to, baby
That's the trouble, that's the trouble
That's the trouble
Oh, that's the trouble, that's the trouble
That's the trouble

Do you still remember
The way it used to be
In the beginning
When love was all we needed
We begged, stole and borrowed
Tryin' to survive
Well, ain't it funny
How it all comes down to pride

Well, I don't wanna go
But first you gotta show me

What'cha feel inside
I can't be denied any longer
What'cha feel inside
Show me what'cha feel inside

Show me what'cha feel for me inside
What's on your mind
Show me what'cha feel for me inside
What's on your mind...
