

.caffeine

atlas

Yo,
Caffeine keeps me goin'
Awake and forlornin'
Couldn't live without my daily dose of coffee in the mornin'
'Cause I often sit around and listen to the coughin'
Wishin' I could end up in a coffin in the mornin'

Caffeine keeps me goin'
Awake and forlornin'
Couldn't live without my daily dose of coffee in the mornin'
And I often sit around and listen to the coughin'
Wishin' I could end up in a coffin in the mornin'

She's the sweetest my caffeine
Jeez if you ask me
She's probably the sweetest thing since 50 cent taffy
Mug full of life juice, my voice actin raspy
Imma thug when the lights lose but hugs when they act clean

They say I'm special for developin' addictions
Sellin' inhibitions when enveloped in convictions
But eyes open, eyes closed, it's the same these days
I bump the same damn song with the same refrain

But I aids like time was in fast forward
Then she came along and I got my ass tortured
Well, I guess that's tough love ain't it
My membership's innocence expired and and I'm tainted
There's a stimulant that's enter in my veins
Hold up
The slave driver holdin' on the chains
Poled up
And now I'm feelin' so damn deranged
So what
I'm lost and and unpadded til the day and I'm gone
But my caffeine will bring me back home
But my caffeine will bring me back home
At least I hope

'Cause caffeine keeps me goin'
Awake and forlornin'
Couldn't live without my daily dose of coffee in the mornin'
And I often sit around and listen to the coughin'
Wishin' I could end up in a coffin in the mornin'

Caffeine keeps me goin'
Awake and forlornin'
Couldn't live without my daily dose of coffee in the mornin'
'Cause I often sit around and listen to the coughin'
Wishin' I could end up in a coffin in the mornin'

Caffeine keeps me goin'
Awake and forlornin'
Couldn't live without my daily dose of coffee in the mornin'
And I often sit around and listen to the coughin'
Wishin' I could end up in a coffin in the mornin'
In the mornin', in the mornin', in the mornin'
