

Afraid To Love

Atlus

I don't want the sun to
Rise another day without you
Pulling on my heartstrings
'Til every shade of grey turns out blue

You're scared to say what you're hiding inside
Patiently waiting for your perfect time
Feet in the water but won't take the dive
And you're quiet break the silence

You're afraid to love
But your heart beats
I can't fall for words
That you don't speak

So tell me what's rolling around
Spinning your head for hours
Don't got to let it win
I wanna be bulletproof
Wanna be there for you
But you won't let me in

You're afraid to love

Followed you into the bottom of a never-ending pit
I tried to have a conversation but the ghost you let them in

You ain't been the same since they came
Your past has you comfortable living in pain
Paradise is not a life you feel that you deserve to live

You're afraid to love
But your heart beats
I can't fall for words
That you don't speak

So tell me what's rolling around
Spinning your head for hours
Don't got to let it win
I wanna be bulletproof
Wanna be there for you
But you won't let me in
You're afraid to love
