

Amnesia

Atlus

Had to watch you leave me (Leave Me)
No tears upon your face (Face, Face, Face, Face, Face)
Gave you what you needed (Needed)
But your heart will never change
I can't help but wake up tired
Tired of the way
I've been losing sleeping at night
Cause I know you're not awake (No you're not awake)

I'll never forget about you
Staring at this message on "Read"
And here I am thinking I had you
But your memories all I got left
Baby all I see is us
Wish I had amnesia but I'll never forget about you
I'll never forget about you

I'm living in a nightmare (nightmare)
When I day-dream (dream dream dream dream dream)
I wake up and you're right there (right there)
But nothings as it seems
I'm scared to even close my eyes
While you're counting sheep
Drinking by the ocean side
Drowning in the deep (Drowning in the deep)

I'll never forget about you
Staring at this message on "Read"
And here I am thinking I had you
But your memories all I got left
Baby all I see is us
Wish I had amnesia but I'll never forget about you
I'll never forget about you
