Baby, where you going?  
Come on, don't leave so soon  
Just got to knowing  
Every little thing 'bout you  
I think I'm in love now  
Maybe it's just the lust, yeah  
Just met, but you got my trust  
In the worst case, baby, I could settle for us

Yeah, but I can't settle for less  
I'm trying to woo you, baby, I'ma give it my best, yeah  
Let's go and buy you a dress  
And when it comes to dinner, always pick up the check  
She want a Louis bag, I cannot pay for that  
Pull out my debit card, that shit in overdraft  
Pull out a couple loans just to pay it back  
But that my queen, she gets whatever she commands

I'll be your number one fan, number one simp  
Even if you seem disinterested  
Gift after gift, yeah, I'll buy your love  
Even if you plan to never give it up

I got your OnlyFans  
I'm not your only fan, yeah  
Girl, don't show all that skin  
I know that it's way off brand

Baby, where you going?

And when you read my dono, you gon' think I'm the best  
I saw your sleep stream, it got me swollen like a bee sting  
You know why I'm here in chat  
Want her to walk the bathroom, staring at her-

Month after month, yeah, you got my sub  
I'm Prime forever, and I'll never give it up
