

All the shit that we've been through  
The breakups with no break throughs yeah  
We put that shit in the rear view  
We put pedal to the floor yeah  
We shoot it up yeah we light the fuse  
A bottle rocket headed to the moon  
Know that when I, am with you, there's not a minute left to lose

Never thought I'd find love  
But damnit girl you changed my mind  
Spent my whole life hoping that it wasn't a waste of time  
You found me sober and then you went and got me high  
Who woulda thought the crooked path I took  
Woulda lead me by your side

All the shots that I tried to take  
I thank god that I didn't make one til  
I met you, cuz I

Never thought I'd find love  
But damnit girl you changed my mind  
Spent my whole life hoping that it wasn't a waste of time  
You found me sober and then you went and got me high  
Who woulda thought the crooked path I took  
Woulda lead me by your side

Never thought that I'd find love  
Never thought that I'd find love  
Never thought that I'd find love  
Never thought that I

Never thought that I'd find love  
Never thought that I'd find love  
Never thought that I'd find love  
Never thought that I

Never thought I'd find love  
But damnit girl you changed my mind  
Spent my whole life hoping that it wasn't a waste of time  
You found me sober and then you went and got me high  
Who woulda thought the crooked path I took  
Woulda lead me by your side
