

## Can't Just Be Your Friend

Atlus

When I drink Jim Beam yeah  
I tend to think you miss me when you don't  
I'm just somebody that you used to know and  
Drinking Casamigos takes me back  
To places we'd go but we can't  
Cause you're busy making others plans

When I'm off the vodka yeah  
I fall right off my rocker say something wrong  
I just hate the fact that you moved on and  
When I'm off the Henny  
I got demons oh so many coming through  
My remedy once was you

Every kiss on the tip of my tongue  
It's bitter-sweet the way forever never was  
Yeah we're doomed but we've had our fun  
Couldn't make love last with you always on the run  
We both know how the story ends  
No hard feelings but I can't just be your friend  
But when I drink I pretend

I found when I'm hurtin' my right-  
hand man has been bourbon 100 proof  
Still nothing burn me quite like you  
Moonshines got me fadin' and the sunrise will awaken without me  
Burning daylight in my sleep

Every kiss on the tip of my tongue  
It's bitter-sweet the way forever never was  
Yeah we're doomed but we've had our fun  
Couldn't make love last with you always on the run  
We both know how the story ends  
No hard feelings but I can't just be your friend  
But when I drink I pretend
