

Devil Ain't Done

Atlas

I never wanna close my eyes
Can't even fall asleep some nights
I feel like just giving up

Every time I tell myself
I'm in a better place
That I've drowned the old me out
And finally turned the page
That voice in the back of my mind
Says no one ever changes
Even when everything's alright
And all of my prayers make it up to the sky

I never wanna close my eyes
Can't even fall asleep some nights
I feel like just giving up
I've tried to put the past behind
But it finds me every single time
Don't matter how far I run
Came a long way from the sinner I was
But something tells me the devil ain't done

Bury me
Can't breathe and feet ain't carrying me
Can't tell if he knows me better than me
Trying to hide in the lies I wanna believe
I wanna believe
But I know how this ends
Can't go down that road again

So I never wanna close my eyes
Can't even fall asleep some nights
I feel like just giving up
I've tried to put the past behind
But it finds me every single time
Don't matter how far I run
Came a long way from the sinner I was
But something tells me the devil ain't done
Something tells me the devil ain't done

This beaten down heart
Is dying inside me
Wherever you are
Lord come and find me

I never wanna close my eyes
Can't even fall asleep some nights
I never even wanna close my eyes
Can't even fall asleep some nights
I feel like just giving up
I've tried to put the past behind
But it finds me every single time
Don't matter how far I run
Came a long way from the sinner I was
But something tells me the devil ain't done
