

# Did Me Wrong

Atlas

You did me wrong (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (baby) what can I say? (What can I say?)  
You want back in, oh no way  
You did me wrong (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (you did me wrong), yeah  
You did me wrong (you did me wrong)

Thought we were friends and now you're switching up  
I said it's me or the latter you inch off the drugs  
Your mom's abusive, your father's inadequate  
Swore that we would never fall into these habits  
You found some new friends, they dragging you down  
Try to pull me in, I can't go that route  
You're someone that I will miss, I notice  
That you're sinking, I can't go down with the ship  
And I did what I had to  
To separate myself from all the trash around you, yeah  
Remember cutting those ties, I was  
Driving home, bumping that Ill Mind 5

You did me wrong (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (baby) what can I say? (What can I say?)  
You want back in, oh no way  
You did me wrong (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (you did me wrong), yeah  
You did me wrong (you did me wrong)

I got demons inside my heart  
And they're stuck to me like scars (like scars)  
So even if it seems like I want to escape, I'm not that strong (I'm not that strong), yeah  
Now I'm negative 'bout all the times and how you did me wrong (yuh)  
'Cause I know (yuh) that I'll be better without you  
When all the drugs are gone (gone)  
But I can't seem to quit 'em  
Pill bottles and prescriptions  
I done battle my addiction every day  
Lord, forgive me for I think I'm 'bout to cave  
Lotta shit I had to say  
Till no one listened to my pain  
They walked away, got no family, friends, or people to explain to  
It's painful, I try to act okay, but no I ain't cool  
Been praying to God, someone save me from this place  
'Cause I fear if I OD again I'll end up in the grave

You did me wrong (hey) (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (baby) what can I say? (What can I say?)  
You want back in, oh no way  
You did me wrong (baby) what can I do? (What can I do?)  
Don't come around, no fuck you  
You did me wrong (you did me wrong), yeah  
You did me wrong (you did me wrong)
