

Hero

Atlus

Look into my eyes, we can both forget the lies
Deep inside I wanna let out all the secrets I can't hide
I'm tired of dealing with the reasons why I always end up running from the truth
Losing sleep at night 'cause I can't remember why
I whisper lies to myself about the feelings that I fight
I never see the evil in me 'cause I'm wrapped up in what's taking over you

In all the signs that we left
Walking roads that we'll regret
Conversations with myself
It's too bad that we don't know nothing

Getting fucked up today
Yeah I'm just fuck up they say
Maybe I'm just an outcast?
Or maybe we're all fucked up in our own damn way
Getting wasted with you
The only one who knows the pain I do
Maybe I need a hero
Or maybe we're so fucked up we could never change

Staring in this mirror, I can't help but hear the lyrics
Every time I turn 'em down it only feels like you're here with me
Then the tears fall down like raindrops 'cause it's up to me to have to cut you loose
Used to paint a perfect image but it never had me in it
Gripping tightly on whatever 'cause you'll leave me in the ending
So past empty that the match I set can't even start a fire on these fumes

In all the signs that we left
Walking roads that we'll regret
Conversations with myself
It's too bad that we don't know nothing

Getting fucked up today
Yeah I'm just fuck up they say
Maybe I'm just an outcast?
Or maybe we're all fucked up in our own damn way
Getting wasted with you
The only one who knows the pain I do
Maybe I need a hero
Or maybe we're so fucked up we could never change
