

Laura Lee

Atlas

We play that game of tag, that's all we ever do
Know I gotta stay back, no sense in catchin' you
Cause the moment that I do, I know you'll go ghost
Happens everytime that I get close
Wanna have faith in you, you always let me down
Sometimes I wish you wouldn't come around

Yeah Laura Lee, why you playin' tricks on me?
And why you always have to deceive -
When you know you can be up front with me?
Oh yeah Laura Lee, tell me what you want to believe
I was swimmin' for your love, but your sea's a bit too rough lately
Yeah Laura Lee

Yeah Laura Lee
I'm gettin' used to, you never bein' there
My friends are proud of theirs, you're something I can't share
Cause the moment that I do, I break down into tears
Loving you isn't something I should fear
Wanna respect you, you always let me down
Sometimes I wish you wouldn't come around

Yeah Laura Lee, why you playin' tricks on me?
And why you always have to deceive -
When you know you can be up front with me?
Oh yeah Laura Lee, tell me what you want to believe
I was swimmin' for your love, but your sea's a bit too rough lately
Yeah Laura Lee
